

FOR IMMEDIATE RELEASE

August, 2008

(Tampa) - FROS-T Sports, Inc. announces the usage of its performance cooling shirt at the AAU Baseball Summer Classic in Clearwater, Florida.

Players from a Tampa U11 Boys AAU Baseball team wore the cooling shirt during extremely hot conditions. The players were positive in their feedback of the shirt with respect to coolness, fit, mobility and overall performance.

Julian, center fielder and left-handed pitcher stated, "I was glad I had the shirt...I pitched in the double header... and I still felt fresh and cool".

FROS-T is currently performing product research by utilizing players in actual game situations. Plans call for final unit production late fall of 2008. The performance cooling shirt will be available in spring of 2009 for wholesale and retail distribution.
